STATINTL

Enclosed you will find a U. S. Government check for the amount of \$316.90 covering the expenses for your recent trip. The difference between the amount you cited in your letter to me and the above figure, i. e., \$1.86, lies in the fact that we are only authorized by law to pay per diem up to \$50. Sorry, and I hope you understand.

As soon as the processing of your papers have been completed, we will again be in touch with you.

In the meantime, if you have any further questions, don't hesitate to give me a call, 

STATOTHR

Sincerely,

/s/ Michael J. Malanick

Mr. J. K. Fasick, Director
International Division
United States General Accounting Office
Washington, D.C. 20548

Dear Mr. Fasick:

This is in response to your request for any comments this Agency may have on the GAO draft report on recovery of gold and silver. We would like to make a few brief remarks.

As far as this Agency is concerned, this report is quite accurate. There is, however, one problem which underlines the possible success or failure of this program that was not discussed and that is that there is no provision made for budgeting, funding, designing, and procuring the necessary systems referred to in the recommendations. Funding is imperative for the research and development efforts needed to improve or replace the old technology used for the reclamation of silver from photographic emulsion. Further, there is no guidance which identifies a specific agency with the responsibility for the design and construction of reclamation facilities to insure uniformity of equipment, methods and procedures.

Like many agencies and organizations, we have drawn upon in-house funds to develop and renovate our own facilities. We recommend, though, that this study be further supported by a report which establishes responsibility for standardization, research and development of the appropriate facilities.

Sincerely,

SIGNED
